3/26/98

Dear Clay,

I was a bit upset when I wrote you earlier today, and more than usually tired and weak. I forgot to suggest that the copyright include both 1997 and 1998. Almost all was weitten in 1997 but two things of 1998 are added.

If the papers you see have anything in the King assassination, on or supposedly on it, or on Posner's book, I'll appreciate it if you send me the clipping.

It often happens that papers carry what they get from the wire services when they cannot cover with their own reporters.

Thanks and best,

Harold
